

# Global COE Program

in Mechanical, civil engineering, architectural and other fields of engineering

## Research Assistant recruitment / 2009 Spring

“Center for Education and Research of Symbiotic, Safe and Secure System Design”  
is recruiting the Research Assistants in doctor’s course, who can demonstrate worldwide leadership.

### APPLICATION

#### 1: Research Assistants

- Unemployed Ph.D. Candidates

#### 2: Non-Paid Research Assistants

- Salary recipient (people in regular work )
- Scholarship recipient
  - \* Scholarship recipients cannot get the allowance from COE. However, you will be qualified for internship, and will be able to join conferences with our expense.

### QUALIFICATIONS

\* Students who can actively participate in research activities as the member of COE program.

\* The research theme, objective or method need to be related to our common theme “Symbiotic, Safe and Secure System Design”.

### THE NUMBER

#### OF RECRUITEMENT

Within 50 peoples

### TERMS

June 1st, 2009 to March 31st, 2010

### ALLOWANCE

JPY 142,400 ~ JPY 207,000 / month \*according to the performance of achievement

### ACTIVITIES

- ◆ Global COE program is the education and the research platform for enhancing your perspective as leaders of “Symbiotic, Safe and Secure System Design”. Any Ph. D. Candidate with strong motivation and interest in our theme is welcome to apply for Research Assistants (RAs). Not only the students from Faculty of Engineering, but the students from other majors are welcome.
- ◆ RAs must participate in elective lectures based on COE program, such as, “Basis for System Design and Management”, “Design Project, ALPS (Active Learning Program Sequence)”, “Complex System Design”, “Advanced Course of Environment, Resources & Energy”, etc. (The lectures and details will be changed depends on the situation.)
  - \* “ALPS” is the international group project, collaborating with Prof. de Weck of MIT and Stanford University.
- ◆ RAs participate in the various type of system design projects depending on their majors and study the world-leading “Symbiotic, Safe and Secure System Design”.
- ◆ RAs run and participate in international symposiums and workshops.
- ◆ RAs can get a chance of internship (3-12 months) to the collaborators in overseas.
- ◆ RAs are required to report and give presentations of your achievements at the end of the year.

### SELECTION

1. **Download** the application forms (2 sheets).URL:<http://www.gcoe-s4design.keio.ac.jp/download/index.html>
2. **Submit the required documents** and **ID Photo by April 13th (17:00) , 2009**  
(Please bring them to the Office by hand, mail, or e-mail.  
In case of sending by e-mail, please send the original documents later.)
3. **Interview** will be held on **April 16th, 2009 at Hiyoshi or Yagami Campus.**  
(Details are to be announced. It is possible to set the interview on another day.)
4. **Results** will be announced on **April 20th, 2009**, by e-mail.

**Inquiry : Global COE Administration Office  
Room 14-520D, Yagami Campus**
